This exploded view diagram illustrates the assembly of a pump. The components are numbered as follows:

- 1 or 2**: Two O-rings used for sealing the main pump housing.
- 5**: A seal ring or O-ring for the front cover.
- 6**: An optional seal ring or O-ring for the front cover.
- 11**: Two O-rings used for the front cover and the pump head.
- 18 or 19**: Two different types of seal rings or O-rings for the front cover.

The assembly sequence involves fitting the O-rings (1 or 2, 5, 6, 11, 18 or 19) into their respective grooves on the pump housing, front cover, and pump head, and then securing them with the appropriate bolts.

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor. The diagram includes the following numbered parts:

- 1:** A long assembly of various small components, including springs, washers, and pins, located at the top left.
- 5:** A series of O-rings and seals arranged in a horizontal line in the upper middle section.
- 15:** A large, circular, flange-like component with multiple mounting holes, positioned in the center.
- 20:** A set of eight long screws or bolts with hexagonal heads, located at the bottom right.
- 21:** A small bag containing several O-rings, located at the bottom center.

The diagram uses dashed lines to show the alignment and assembly sequence of the various components.
