Technical drawing of a mechanical device, likely a pump or engine component, shown in a perspective view. The device features a main body with a sloped top surface and a base. A central vertical shaft or rod is visible, passing through the body. A handle or lever is attached to the side. The drawing includes numerous numbered callouts (1-35) pointing to various components. Two detailed insets are provided: one showing a close-up of a bolt or screw (33) and another showing a close-up of a mechanical assembly (32) with internal components. The drawing is labeled with 'A' and 'B' at the bottom, indicating specific views or sections.

Comments for Page: Fuel tank assembly

(L)OCAL REMARK

A | 1. Material: Inner tube=NBR, outer tube=CR. Temperature range -30°C till +80°C.

2. Dimention: ID=8±0.75mm, OD=15.5mm.

3. Standard:ISO 7840 Firerestant fuel hoses and comply with Class A2,fuel permeation rate max. 12 g/(m² h)

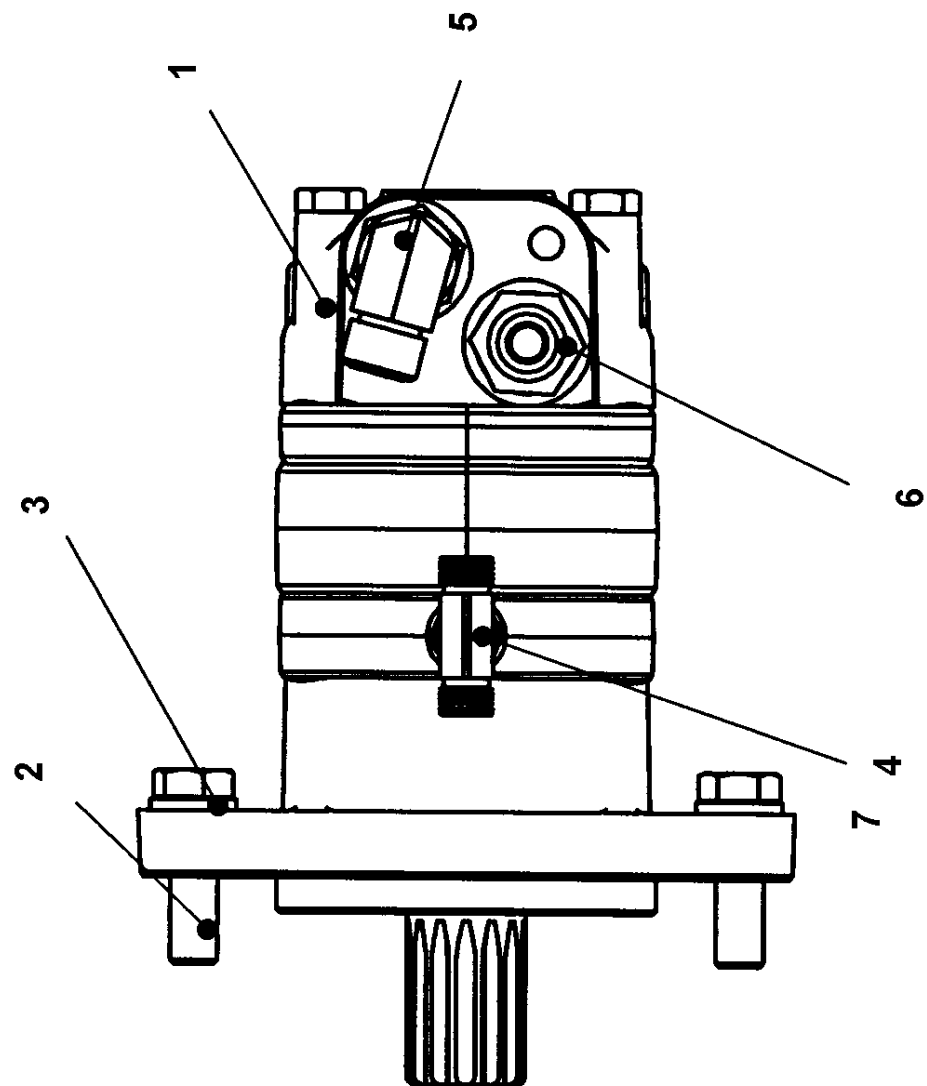

4. Temperature range: -30°C till +80°C

5. Other:Operating pressure=3.4bar, Min burst pressure=14bar, Bend radius=95mm"

This technical drawing is a detailed cross-sectional view of a mechanical assembly, likely a pump or a similar fluid-handling device. The assembly is symmetrical about a central vertical axis. The drawing includes numerous numbered callouts (1 through 79) pointing to various components, including housing parts, internal shafts, valves, and seals. The components are shown in cross-section with hatching to indicate different materials or sections. The drawing is oriented horizontally on the page, with the central axis running vertically.

The image contains four technical drawings of a multi-channel valve assembly, labeled 1 through 4.

- Figure 1:** A perspective view of the valve assembly. It shows a rectangular body with four channels. Each channel has a handle (11) and a valve (12). The assembly is mounted on a base (14) with four feet (15). A control lever (16) is attached to the side. A cross-section line A-A is indicated.
- Figure 2:** A cross-section view of the valve assembly, showing the internal components and the mounting base (14).
- Figure 3:** A top view of the valve assembly, showing the arrangement of the four channels and the control lever (16).
- Figure 4:** A top view of the valve assembly, showing the arrangement of the four channels and the control lever (16).
