Din säkerhet och dina medarbetares säkerhet är målet som våra konstruktörer ställt för att du ska få en säker och tillförlitlig maskin från Svedala Dynapac. Den viktigaste säkerhetsfaktorn är ändå du själv.

This is why safety is important to you!

Your safety and your colleague's safety are the objectives our designers set so that you receive a safe and reliable machine from Svedala Dynapac. However, the most important safety factor is still yourself.

Darum ist Sicherheit für Sie so wichtig!

Ihre Sicherheit und die Sicherheit Ihrer Mitarbeiter waren das Ziel unserer Konstrukteure bei der Entwicklung einer sicheren und zuverlässigen Svedala Dynapac-Maschine für Ihre Arbeit. Der allerwichtigste Sicherheitsfaktor sind jedoch Sie selbst.

¡La seguridad le concierne!

Su seguridad y la de sus colaboradores es la meta que nuestros constructores se han fijado para que su Svedala Dynapac sea una máquina fiable y segura. Usted mismo es, sin embargo, el factor de seguridad más importante.

En quoi la sécurité vous concerne

Assurer votre propre sécurité et celle de vos collaborateurs est le but que se sont fixé nos constructeurs pour faire de votre Svedala Dynapac une machine sûre et digne de confiance. Toutefois la sécurité dépend de vous.

Part number index

Last group in the catalogue is a listing of all part numbers, listed in numerical sequence and referring to the page where it can be found in the catalogue.

The use of the catalogue

To find ordering data for a specific spare part, first select the group that covers the part. Find subgroup in the index on the first page in actual group. Locate the part in the illustration for this subgroup. The item number for the part refers to the opposite page where all ordering data for the actual spare part can be found.

If only the part number is known use the part number index to find the subgroup page from which all ordering information can be found. To locate the part on the machine and the function find the corresponding item number on the illustration.

Kataloganvisningar

Denna reservdelskatalog innehåller information om hur man identifierar och beställer de delar som ingår i den välttyp som katalogen behandlar.

Katalogens uppbyggnad

Katalogen är indelad i grupper som framgår av registerbladet på sidan III. Dessa är gemensamma för samtliga kataloger från Svedala Compaction Equipment AB. På första sidan inom varje grupp finns en innehållsförteckning som visar på vilken sida de avsnitt som gruppen omfattar återfinnes. I slutet av katalogen finns ett nummerregister.

Hela katalogen är på engelska och svenska förutom sidan VI, som beskriver hur man beställer reservdelar, och sidan IX, som innehåller instruktioner om pärmetikett. Dessa är på sex språk (svenska, engelska, tyska, italienska, spanska och franska). Anmärkningar och fotnoter är endast på engelska.

Bildsidan

Bildsidans illustrationer utgöres som regel av perspektivritningar. De avbildade artiklarnas positionsnummer återfinnes på motstående textsida. Sammansatta enheter markeras med en fyrkant eller ring runt positionsnumret. Bildsidan upprepas så länge respektive avsnitt varar.

Textsidan

Textsidan är indelad i ett antal fält och kolumnen enligt följande:

- Katalogens nummer samt revision.
- Vältmodellen som katalogen gäller.
- Katalogens utgivningsår och månad.
- Avsnittets bildnummer som också finns nere till vänster på bildsidan.
- Avsnittets benämning, vilken som regel också är den som finns i gruppens innehållsförteckning.
- Grupp- och sidnummer.
- Positionsnumret utgör sambandet mellan en reservdelsbeställningsdata på textsidan och den illustrerade artikeln på bildsidan.
- Här anges det antalet av en viss artikel som fordras för den variant av vält som visas i kolumnens huvud. Står här inget gäller antalet samtliga varianter.
- Artikelnumret som skall användas vid beställning av reservdelar.
- △ and Δ: Symboler för personligt relaterad säkerhetsdetalj.
- Artiklens benämning på engelska och svenska. Artiklar föregångna av en punkt och förskjutna åt höger ingår vid köp i den ovanstående sammansatta enheten.
- Reservdelskodning, i första hand avsedd för det interna arbetet inom Svedala Dynapac. "A" anger skötseldel, "B" sliddel, "C" föreslagen utbytesdel och "D" standard reservdel.
- Denna kolumn kan innehålla förtydligande uppgifter av olika slag såsom förkortningar, hänvisningar och dimensioner. Längre anmärkningar har numererats inom respektive grupp och noterats längst ner på sidan.

Nummerregister

I sista gruppen återfinns ett register, där alla artiklarna är upptagna i nummerordning med hänvisning till den sida var man kan finna motsvarande reservdel.

Katalogens användande

För att hitta beställningsdata för en reservdel, söker man först upp den grupp i vilken artikeln ingår. I gruppens innehållsförteckning söker man sig fram till det avsnitt vari artikeln ingår. Positionsnumret på bildsidan motsvarar samma nummer på vidstående textsida, där data erhålles för beställning av reservdelen.

Om endast artiklens nummer är känt, använd nummerregistret för att hitta sidan där övrig information om artikeln återfinns. Genom att från positionsnumret på textsidan gå över till motsvarande position på bildsidan återfinns man artiklens placering och funktion där den ingår.
